These fans are manufactured in their entirety at our factory at 212 Gateway Drive in Ottumwa Iowa. They are specifically designed for the control of heat and humidity in the buildings they are installed on. It is our understanding that they fully comply with all known and stated requirements and stipulations for the 2995 Energy Tax Credit as recorded on;

IRS Form 5695, page 4 under the

"Residential Energy Efficient Property Credit".

Allowing for 30% up to \$2000 in credit for solar electric property costs.

In order to qualify, the Solar Dynamic Solar products must have been placed in service on June 1, 2009 through December 31, 2016. In addition, the products must have been properly installed meeting all applicable building, electrical and fire codes.

To claim a tax credit, this Statement of Certification is not required to be filed with the tax forms, but income tax regulations require taxpayers to have appropriate documentation to qualify for a tax credit. Please complete the form below and keep it with your tax records.

Disclaimer: This Statement of Certification was declared on June 1, 2009 in accordance to the qualifications for tax credits as the law states on this date. Solar Dynamics LLC cannot guarantee the products eligibility if the current requirements or laws change after 6/1/09. Solar Dynamics recommends consulting a tax professional if considering filing for a tax credit. More information about tax rebates is available from the IRS. Solar Dynamics LLC is not responsible or liable for a taxpayer's ability to receive tax credits.
